EDUCATION

Full Stack Open Course Certificate

University of Helsinki

2023 - now

I've completed the exercises for the basic part of the course (parts 1-6). Some of the material includes React, NodeJS, Express & testing libraries.

Computer Science

University of Laval

2016 - 2017

In my studies, I learned the basics of programming (Python), OOP (C++), relational modelling (UML) and the basics of computing and Assembly (ARM).

Bachelor's Degree in Music

University of Montreal

2012 – 2016

I studied music in the University of Montreal and specialized in harp & classical singing performance.

SKILLS

- HTML, CSS
- Javascript/Typescript
- ReactJS / NextJS
- Tailwind
- Figma
- VSCode, Git
- NodeJS, Express
- MongoDB

SUMMARY

Hi! My name is Audrey and I'm a junior web developer. I used to study Computer Science at the Bachelor's level, after which I decided to pursue my career in music.

In the last year, I made the decision to shift my career back to web development and began University studies again.

Check out my previous projects on my [portfolio website](#), which includes also design & UI/UX projects.

PROJECTS & EXPERIENCE

Opetellaan Suomea - Language Learning App

Project & Demo: <https://www.oodri.dev/portfolio/opetellaan-suomea>

A language app for learning Finnish, built with NextJS 13, Typescript & Tailwind CSS

Leaflink - Linktree Clone

Project & Demo: <https://www.oodri.dev/portfolio/leaflink>

Full stack web app built with NextJS 13, MongoDB, Typescript and Tailwind that allows users to host a simple page featuring a list of URLs. Designed using Figma.

Elvann - Music Artist Portfolio

Project & Demo: <https://www.oodri.dev/portfolio/elvann>

Creation & design of an artist portfolio build with Wordpress & Elementor. This project was focused on SEO, content & lead acquisition.

Elvann - E-Commerce

Project & Demo: <https://www.oodri.dev/portfolio/elvannstore>

E-commerce project using Shopify, with integration to a print-on-demand service and email marketing integration with Mailerlite.

Jekyll Landing Page Redesign

Project & Demo: <https://www.oodri.dev/portfolio/jekyll-redesign>

Landing page redesign and brand update for Jekyll, a popular open source static site generator build on top of Ruby.
